

C-150A

Application

C Type connectors with pure copper for superior conductivity and durability, ensuring long-lasting performance without compromising efficiency. Current with 120A, 150A, 200A, 300A and 400A to cater to various battery capacities and power needs, providing flexibility during installation and maintenance. Applications: Automotion, marine, communications, various vehicle electrical systems. renewable energy storage systems, etc.

Product Parameters

Product Series	Battery Terminal Connector
Rated current	150A
Rated Voltage	0-1000V
Material	Pure Copper (PA66/H62 Brass)
Type	Square
Internal thread (contact size)	M8
Screw Size	M6
Protection Level	IP54
Working Temperature	-40 °C~+125 °C
